Chlorinating and filtering water in the town tank at Koppa

Sir,

In continuation of this office No 308-9/S dated 14/8/1945 on the above subject, I have the honor to state that the Deputy Commissioner, Kadur District, has intimated the Sanitary Engineer, Bangalore in his (Deputy Commissioner's) letter No A 3 C 2766/43-44 dated 5th September 1945 that the Municipal Council, Koppa, feels that it is impossible to finance the construction of filter beds, the estimated cost viz , Rs 33,400/- being too heavy and that it has resolved that for the present, the chlorination of the water may be taken up But the construction of filter beds is however, proposed to be taken up when the financial condition of the Municipality improves

I have &c

Sir,

Re:- Chlorination and filtering water in the water supply tank at Koppa

With reference to your letter No L 3403 dated 6th November 45 requesting to submit detailed proposals on the question of preserving the scheme, I have the honour to state that the Municipal Council, have found it impossible to take up the construction of filter beds at a heavy cost of Rs.33,400/- They have resolved that for the present, the chlorination of the water may be taken up The Koppa Municipal Council with the heavy commitment of running a municipal high school is unable to finance the scheme or Society or it also may be taken up when the finances of the Municipality improve and water rates are reduced

A copy of the above effect has been sent to the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore with this Office letter No A3-6 2705/43-44 dated 5th September 1945 and he has been requested to take necessary action for the chlorination of the water

The estimates, plans and the copy of the resolution of the Municipal Council are enclosed for favour of reference

No.A3.C.935-103/46-47.
(Encls. 2).

To

The Secretary to Government of
His Highness The Maharaja of Mysore,
Revenue Department, Bangalore.

Sir,

Re:- Improving the Water supply at Koppa - Construction of Gravity Filters etc -

With reference to your letter No L.3000 dated 28th August 1946, requesting me to intimate if the Koppa Municipal Council agrees to take up the work now and if so, how they would meet the cost, I have the honour to forward herewith, a copy of the Resolution passed by the Koppa Municipal Council at its meeting held on the 26th September 1946. The Municipal Council is of opinion that it is not desirable to construct 'Gravity Filters' and that the improvements to the Water Supply Scheme may be taken up after the Koppa Town is electrified.

2. During January 1945, an estimate for providing Filter Beds for Water supply to Koppa Town costing Rs.33,400/- had been received from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore. The Municipal Council resolved on 8-2-1945, that as the Municipality is unable to provide the required funds, the work may be taken up when the finances of the Municipality are improved. In this connection, kind reference is invited to this Office letter No A3.C. 2398/45-46 dated 10th November 1945 addressed to Government in the matter.

3. The estimate as revised and received would cost Rs.37,630/- as against Rs 33,400/- being the cost of the original estimate. It is reported that during the last year, during summer, it was found difficulty to get adequate flow of water by gravitation to suffice the needs of the town, which is growing. By the introduction of the gravity filters at a huge cost, the water head will have been very much lowered and consequently the flow of water in summer months would become scanty.
